

TEXAS TOWNS

SHERMAN.

Sherman Has 15,031 People, Says Bureau.

Sherman, Texas, May 27.—Sherman's census figures as given above do not include the population of the additions in Northwest Sherman which were taken into the corporate limits last Feb. Those additions give the city several hundred additional population, but as they became a part of the city after the first of January, it was impossible for the residents there to be counted in the official census. An effort to incorporate the additions before the first of January proved abortive.

The census figures as given out indicate a healthful growth on the part of Sherman. They are about in accordance with what the population has been estimated, but on the whole prove disappointing in not giving what the true population of the city is with the Northwest additions.

In the death of Mr. Allen Wilson 17th inst., from heart failure the wife, children, relatives and city lost most deserving citizen. He was a consistent Christian of Progressive Baptist, where his funeral was attended by Rev. H. D. Allen, assisted by pastor, Rev. J. W. Williams.

Miss Lona Johnson of San Antonio is visiting her aunt, Mrs. Porter. The backslate sermon of Fred Douglass high school was attended morning of 23rd inst., at St. John, C. M. E., by Rev. Dr. I. Robinson before large crowd. Commencement Exercises of Fred Douglass School, Class '20.

The faculty and class of Fred Douglass School extend to you a cordial invitation to be present and witness the closing exercises Friday Morning, May 28, 1920, at ten o'clock, Harmony Baptist Church, Sherman, Texas.

WILEY UNIVERSITY

MARSHALL, TEXAS

THE SUMMER SCHOOL.

Primarily for the benefit of teachers and others who are unable to attend the regular session, there will be operated at Wiley University an eight-weeks' Summer School, June 21st to August 14th. The courses offered will be the same as those of the regular session. One-half semester's work will be completed in the eight weeks and regular credits will be given.

STATE AID.

The State Department of Education will assist financially in the Summer School and will co-operate in other ways to insure success in an effort to provide Texas teachers with opportunities inside the state for real professional training, such as has been offered by Hampton and Tuskegee for a number of years.

FACULTY OF SPECIALISTS.

The teachers in the Summer School like the Faculty of the regular session, will be specialists in their line. On the force will be many of the heads of the departments during the regular session, together with such other experts from elsewhere as may be needed, and who have been a success in their work.

WONDERFUL OPPORTUNITY.

This is a splendid opportunity for the teachers of Texas—Louisiana, Arkansas and Oklahoma. There is an educational awakening all over the country at this time. Old methods, which have been outgrown, are being discarded. New and improved methods are being adopted and are being demanded of every teacher. The teacher who is wise will avail himself of this opportunity to keep abreast with the times; that one who is not will have only himself to blame.

CREDITS.

For the work done in the Summer School regular credits will be given. One-half of a semester or one-fourth of a year's work may be done during the Summer Session.

SUMMER NORMAL.

At the same time and place and in connection with the Summer School there will be a Summer Normal for those who wish to get training preparatory to securing a certificate to teach in Texas. This Normal has been duly authorized by the State Department of Education.

The Summer Normal will run four days longer than the Summer School for the purpose of examination.
